Phoenix, AZ, June 2023— Speedie & Associates, LLC - A UES Company is pleased to announce the promotion of Nicholas Vitale from Staff Engineer to Project Manager. This promotion is a testament to Nicholas' outstanding performance, unwavering dedication, and commitment to delivering high-quality projects that consistently exceed client expectations. In his new role as Project Manager, Nicholas will take on additional responsibilities, overseeing multiple projects and managing client relationships.

Nicholas Vitale, a professional engineer licensed in October 2019, joined Speedie in 2018 as a Staff Engineer. A graduate of Arizona State University, Nicholas received his bachelor's degree in civil engineering in 2014 and his master's degree in civil engineering in 2015. Since joining Speedie, Nicholas has proven himself a valuable asset to the company. Throughout his tenure, he has demonstrated outstanding technical expertise, leadership skills, and a passion for excellence.

About Speedie & Associates, LLC – A UES Company

Speedie is a consulting engineering firm specializing in geotechnical and environmental engineering as well as construction monitoring and materials testing. Our firm has extensive experience in Arizona and the Southwest and has operated in Phoenix since 1980. Speedie's main office and laboratory facility is based in Phoenix, Arizona and currently operates branch facilities in Tucson and Flagstaff, Arizona.

Consistently ranked as one of Arizona's top specialty engineering firms, Speedie provides clients with sound, economical solutions to today's sometimes difficult engineering scenarios. As a recognized leader throughout Arizona, Speedie is dedicated to customer service by providing highly talented and committed individuals who will work together with a strong sense of unity and teamwork to achieve, and excel beyond, the goals of each project. Speedie's professionals have strong, long-standing working relationships with local, county, and state agencies that help facilitate projects through the regulatory requirements from the planning stage through final completion.
